TGR LEARNING LAB

WINTER 2019 MEMBER APPLICATION

January 7 – February 7
Application Deadline: **December 21, 2018**

Dear Prospective TGR Learning Lab Member,

This is your application to receive a scholarship to attend the TGR Learning Lab's five-week Expanded Learning Program. There is a one-time \$5 fee for an identification card once accepted.

There are three steps in the application process. Please follow all directions and use the checklist below as you complete each step:

- Step 1: Select your course(s) and write a Personal Statement
- Step 2: Complete the Registration Form
- Step 3: Attach a copy of your most recent Report Card (quarter or semester)

Unfortunately, we do not have enough space to take every applicant. Therefore, it is very important that each section of this application be filled out neatly and completely. Incomplete applications will not be accepted. Please return the completed application to your school's designated location or mail to:

TGR Learning Lab
One Tiger Woods Way
Anaheim, CA 92801
714.765.8000

Thank you. We hope to see you at the TGR Learning Lab.

TGR LEARNING LAB MEMBER BENEFITS

ACADEMIC SUPPORT

TGR Learning Lab Members have an opportunity to receive academic support in a core subject as well as college preparation support from TGR Learning Lab staff.

Hours

Monday – Thursday
2:30 – 6:00 p.m.

GOLF PROGRAM

The TGR Learning Lab grounds include a 10-acre driving range and 18-hole putting course. Members have access to the driving range and can purchase balls for \$1 per bucket.

Hours

Monday – Thursday	Friday
2:30 – 6:00 p.m.	2:30 – 4:00 p.m.
Saturday	
9:00 a.m. – 4:00 p.m.	

GRADES 7-12
Monday/Wednesday

EV3 Robotics

Ever wonder what it would be like to create your own robot? Well wonder no more! In this class, you will have the opportunity to exercise your creative mind to design, build and program you robot to perform different challenges such as a maze challenge, sumo competition and much more.

Marine Biology & Technology

More than 70% of our planet is covered by the ocean, but the majority of the ocean has not yet been explored. Due to the advancement of technology, marine biologists have been able to research the unknown ecosystems and organisms. Find out what types of equipment are being used by scientists and engineers!

Secrets of Short Game

Can you get the ball in the hole in the least amount of strokes? This class provides the fundamentals of the shots around the green to lower your scores. Learn to putt, chip, "splash" and swing through innovative games and competitions.

Story Telling with RPG Maker

RPG Maker is a video game creation software that allows users to create story-based games similar to Undertale and old school Final Fantasy games. In this course, you will develop a story using RPG Maker and learn to code it into a video game you design.

Structural Engineering

Do you enjoy working with your hands and building things? If your answer is "YES!" then this is the course for you. Learn how civil engineers use the application of physical and scientific principles to help them with many architectural designs.

GRADES 7-12
Tuesday/Thursday

Wildlife Biology

Do you think you have what it takes to study animals? Come learn how to decode animal behavior, track animal movements and save species from extinction in this exciting class. We will be using many of the same tools that scientists use to learn about animals in the field.

High Flying Forces

Blast off into the world of an aerospace engineer. In this class, you will explore the forces of flight as you build and test your own wing to see if it achieves lift. Assemble different rockets to discover various forms of thrust. Master the concept of Newton's Laws of Motion to design and build your very own propeller plane, glider, parachute or kite and make it fly high in the sky.

Graphic Design

Have you ever wondered how to make an old photograph look new again or create an awesome poster of you standing on the moon? This is the power of Adobe Photoshop. Through images, you will learn to manipulate the world around you. In this course, you will explore different theories and tools to create your own Photoshop design. At the end of the course, you will have a self-made poster to bring home.

Nutrition & Fitness

Discover delicious eating habits that will energize your body and boost your mood. Conduct fascinating experiments and discover what we're really eating. Get your heart pumping through invigorating cardio and strength training exercises. Use these 5 weeks to set goals and learn how to crush them!

Power of Chemistry

We are constantly surrounded by solids, liquids and gases that chemically react on earth, in our homes and in our bodies. Experiment with common chemicals to create something new, slimy and yummy. Come see, hear and taste the science of chemistry.

Peak Performance

Are you an aspiring golfer who wants to play high school or college golf? Maybe even play professional golf someday? This is the class for you! This advanced golf class will have you learning and trying new things so you can get to the top. You will be learning what it takes both mentally and physically in order to achieve your goals. You will see huge strides in your game through countless drills, exercises and expert analysis.

GRADES 7-8
Monday/Wednesday

Forensic Files

Do you enjoy mysteries and solving crimes? Are you interested in upholding the law or becoming a detective? Forensic Files will fascinate you with evidence, crime scene investigation and careers in the forensic science field. Dust off your fingerprinting skills and take the challenge of solving the crime of the century!

GRADE 11
Tuesday or Thursday

College Bound II

Is the college application season quickly getting busier? Ready for the SAT? If you are a junior in high school and are currently working on applying for colleges, get prepared for the SAT, ACT, personal statement and scholarships with us.

* This class is a part II continuation class to the college bound class previously provided during the Fall 2 expanded learning program and will focus on other topics related to the continuation of the college application process.

**This is a once a week class for students in their junior year only!

Application

At the TGR Learning Lab, we are focused on opening your mind to potential careers and college majors available to you. We ask that by applying, you understand this is a five-week commitment to yourself and your future. Your next step is to select the courses you would like to participate in. While we cannot accommodate all requests, we will do our best to place you in one of your top choices. After selecting your courses, **please write a personal statement below about why you would like to attend the TGR Learning Lab.** The Expanded Learning Program runs Monday - Thursday from 2:30 p.m. - 6:00 p.m. Courses begin at 4:00 p.m. and end at 6:00 p.m. Parents will need to pick up their child from the TGR Learning Lab no later than 6:00 p.m. ***Please note that incomplete applications will not be accepted.**

Please indicate your top 5 course selections: (place a 1 - 5 on the line)

Grades 7-12 Courses

Monday/Wednesday

- ___ EV3 Robotics
- ___ Marine Biology & Technology
- ___ Secrets of Short Game
- ___ Story Telling with RPG Maker
- ___ Structural Engineering

Grades 7-8

- ___ Forensic Files

Grades 7-12 Courses

Tuesday/Thursday

- ___ High Flying Forces
- ___ Graphic Design
- ___ Nutrition and Fitness
- ___ Power of Chemistry
- ___ Peak Performance
- ___ Wildlife Biology

Grade 11 Courses

Tuesday

- ___ College Bound II

Thursday

- ___ College Bound II

Please write 4-6 sentences about why you would like to attend the TGR Learning Lab.

If transportation were offered, would you take advantage of it? Yes No

Transportation is being considered for the schools listed below. Please contact the TGR Learning Lab for details.
